NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(in millions, unaudited)

This report is a combined report of Spectrum Brands Holdings, Inc. (“SBH”) and SB/RH Holdings, LLC (“SB/RH”) (collectively, the “Company”). The notes to the condensed consolidated financial statements that follow include both consolidated SBH and SB/RH notes, unless otherwise indicated below.

NOTE 1 - BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared by the Company and its majority owned subsidiaries in accordance with accounting principles for interim financial information generally accepted in the United States and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all the information and notes necessary for a comprehensive presentation of financial position and results of operations. It is management’s opinion, however, that all material adjustments have been made which are necessary for a fair financial statement presentation. For further information, refer to the consolidated financial statements and notes included in the Company’s Annual Report on Form 10-K for the year ended September 30, 2016.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*, which supersedes the revenue recognition requirements in ASC 605, *Revenue Recognition*. This ASU requires revenue recognition to depict the transfer of goods and services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The new revenue recognition model requires identifying the contract and performance obligations, determining the transaction price, allocating the transaction price to performance obligations and recognizing the revenue upon satisfaction of performance obligations. This ASU also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments, and assets recognized from costs incurred to obtain or fulfill a contract. This ASU can be applied either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying the updates recognized at the date of the initial application along with additional disclosures. In August 2015, the FASB issued ASU No. 2015-14, *Revenue from Contracts with Customers (Topic 606) Deferral of the Effective Date*, which amends the previously issued ASU to provide for a one year deferral from the original effective date. As a result, the ASU will become effective for us beginning in the first quarter of our fiscal year ending September 30, 2019, with early application available to us beginning in the first quarter of our fiscal year ending September 30, 2018. We are assessing the impact this pronouncement will have on the consolidated financial statements of the Company and have not determined the materiality or method of adoption.

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*, which supersedes the lease requirements in ASC 840, *Leases*. This ASU requires lessees to recognize lease assets and liabilities on the balance sheet, as well as disclosing key information about leasing arrangements. Although the new ASU requires both operating and finance leases to be disclosed on the balance sheet, a distinction between the two types still exists as the economics of leases can vary. The ASU can be applied using a modified retrospective approach, with a number of optional practical expedients relating to the identification and classification of leases that commenced before the effective date, along with the ability to use hindsight in the evaluation of lease decisions, that entities may elect to apply. As a result, the ASU will become effective for us beginning in the first quarter of our fiscal year ending September 30, 2020, with early adoption applicable. We are assessing the impact this pronouncement will have on the consolidated financial statements of the Company and have not determined the materiality or method of adoption.

The Term Loans and Revolver Facility are subject to variable interest rates, (i) the USD Term Loan is subject to either adjusted LIBOR (International Exchange London Interbank Offered Rate), subject to a 0.75% floor plus margin of 2.50% per annum, or base rate with a 1.75% floor plus margin of 1.50% per annum, (ii) the CAD Term Loan is subject to either CDOR (Canadian Dollar Offered Rate), subject to a 0.75% floor plus 3.5% per annum, or base rate plus 2.5% per annum, (iii) the Euro Term Loan is subject to either EURIBOR (Euro Interbank Offered Rate), subject to a 0.75% floor plus 2.75% per annum, with no base rate option available and (iv) the Revolver Facility is subject to either adjusted LIBOR plus 2.75% per annum, or base rate plus 1.75% per annum. As a result of borrowings and payments under the Revolver Facility, at January 1, 2017, the Company had borrowing availability of \$300.6 million, net outstanding letters of credit of \$24.7 million and a \$9.2 million amount allocated to a foreign subsidiary.

On October 20, 2016, the Company redeemed the remaining outstanding aggregate principal on the 6.375% Notes of \$129.7 million with a make whole premium of \$4.6 million charge to interest expense for the three month period ended January 1, 2017 in connection with the issuance of the €425 million aggregate principal amount 4.00% unsecured notes due 2026 (the "4.00% Notes") and repurchase of the 6.375% Notes on September 20, 2016.

NOTE 10 - DERIVATIVES

Cash Flow Hedges

Interest Rate Swaps. The Company uses interest rate swaps to manage its interest rate risk. The swaps are designated as cash flow hedges with the changes in fair value recorded in Accumulated Other Comprehensive Income (“AOCI”) and as a derivative hedge asset or liability, as applicable. The swaps settle periodically in arrears with the related amounts for the current settlement period payable to, or receivable from, the counterparties included in accrued liabilities or receivables, respectively, and recognized in earnings as an adjustment to interest from the underlying debt to which the swap is designated. At January 1, 2017 and September 30, 2016, the Company had a series of U.S. dollar denominated interest rate swaps outstanding which effectively fix the interest on floating rate debt, exclusive of lender spreads, at 1.36% for a notional principal amount of \$300.0 million through April 2017. The derivative net gain estimated to be reclassified from AOCI into earnings over the next 12 months is \$0.3 million, net of tax. The Company’s interest rate swap derivative financial instruments at January 1, 2017 and September 30, 2016 are as follows:

(in millions)	January 1, 2017		September 30, 2016	
	Notional Amount	Remaining Years	Notional Amount	Remaining Years
Interest rate swaps - fixed	\$ 300.0	0.3	\$ 300.0	0.5

Commodity Swaps. The Company is exposed to risk from fluctuating prices for raw materials, specifically zinc and brass used in its manufacturing processes. The Company hedges a portion of the risk associated with the purchase of these materials through the use of commodity swaps. The hedge contracts are designated as cash flow hedges with the fair value changes recorded in AOCI and as a hedge asset or liability, as applicable. The unrecognized changes in fair value of the hedge contracts are reclassified from AOCI into earnings when the hedged purchase of raw materials also affects earnings. The swaps effectively fix the floating price on a specified quantity of raw materials through a specified date. At January 1, 2017, the Company had a series of zinc and brass swap contracts outstanding through December 2017. The derivative net gains estimated to be reclassified from AOCI into earnings over the next 12 months is \$2.2 million, net of tax. The Company had the following commodity swap contracts outstanding as of January 1, 2017 and September 30, 2016.

(in millions, except notional)	January 1, 2017		September 30, 2016	
	Notional	Contract Value	Notional	Contract Value
Zinc swap contracts	5.1 Tons	\$ 9.8	6.7 Tons	\$ 12.8
Brass swap contracts	1.0 Tons	\$ 3.8	1.0 Tons	\$ 4.0

Foreign exchange contracts. The Company periodically enters into forward foreign exchange contracts to hedge a portion of the risk from forecasted foreign currency denominated third party and intercompany sales or payments. These obligations generally require the Company to exchange foreign currencies for U.S. Dollars, Euros, Pounds Sterling, Australian Dollars, Canadian Dollars or Japanese Yen. These foreign exchange contracts are cash flow hedges of fluctuating foreign exchange related to sales of product or raw material purchases. Until the sale or purchase is recognized, the fair value of the related hedge is recorded in AOCI and as a derivative hedge asset or liability, as applicable. At the time the sale or purchase is recognized, the fair value of the related hedge is reclassified as an adjustment to Net Sales or purchase price variance in Cost of Goods Sold on the Condensed Consolidated Statements of Income. At January 1, 2017, the Company had a series of foreign exchange derivative contracts outstanding through December 2017. The derivative net gains estimated to be reclassified from AOCI into earnings over the next 12 months is \$7.6 million, net of tax. At January 1, 2017 and September 30, 2016, the Company had foreign exchange derivative contracts designated as cash flow hedges with a notional value of \$259.9 million and \$224.8 million, respectively.

Net Investment Hedge

On September 20, 2016, SBI issued €425 million aggregate principle amount of 4.00% Notes. See Note 9, “Debt” for further detail. The 4.00% Notes are denominated in Euros and have been designated as a net investment hedge of the translation of the Company’s net investments in Euro denominated subsidiaries at the time of issuance. As a result, the translation of the Euro denominated debt is recognized as AOCI with any ineffective portion recognized as foreign currency translation gains or losses on the statement of income when the aggregate principal exceeds the net investment in its Euro denominated subsidiaries. Net gains or losses from the net investment hedge are reclassified from AOCI into earnings upon a liquidation event or deconsolidation of Euro denominated subsidiaries. As of January 1, 2017, the hedge was fully effective and no ineffective portion was recognized in earnings.

Derivative Contracts Not Designated as Hedges for Accounting Purposes

Foreign exchange contracts. The Company periodically enters into forward and swap foreign exchange contracts to economically hedge a portion of the risk from third party and intercompany payments resulting from existing obligations. These obligations generally require the Company to exchange foreign currencies for U.S. Dollars, Canadian Dollars, Euros, Pounds Sterling, Taiwanese Dollars, Hong Kong Dollars or Australian Dollars. These foreign exchange contracts are fair value hedges of a related liability or asset recorded in the accompanying Condensed Consolidated Statements of Financial Position. The gain or loss on the derivative hedge contracts is recorded in earnings as an offset to the change in value of the related liability or asset at each period end. At January 1, 2017, the Company had a series of forward exchange contracts outstanding through December 2017. At January 1, 2017 and September 30, 2016, the Company had \$206.3 million and \$131.4 million, respectively, of notional value of such foreign exchange derivative contracts outstanding.

Commodity Swaps. The Company periodically enters into commodity swap contracts to economically hedge the risk from fluctuating prices for raw materials, specifically the pass-through of market prices for silver used in manufacturing purchased watch batteries. The Company hedges a portion of the risk associated with these materials through the use of commodity swaps. The swap contracts are designated as economic hedges with the unrealized gain or loss recorded in earnings and as an asset or liability at each period end. The unrecognized changes in the fair value of the hedge contracts are adjusted through earnings when the realized gains or losses affect earnings upon settlement of the hedges. The swaps effectively fix the floating price on a specified quantity of silver through a specified date. At January 1, 2017, the Company had a series of commodity swaps outstanding through September 2017. The Company had the following commodity swaps outstanding as of January 1, 2017 and September 30, 2016:

(in millions, except notional)	January 1, 2017		September 30, 2016	
	Notional	Contract Value	Notional	Contract Value
Silver	20.0 troy oz.	\$ 0.4	31.0 troy oz.	\$ 0.6

Fair Value of Derivative Instruments

Total Derivative Liabilities		\$ 1.4	\$ 3.2

The Company is exposed to the risk of default by the counterparties with which it transacts and generally does not require collateral or other security to support financial instruments subject to credit risk. The Company monitors counterparty credit risk on an individual basis by periodically assessing each counterparty's credit rating exposure. The maximum loss due to credit risk equals the fair value of the gross asset derivatives that are concentrated with certain domestic and foreign financial institution counterparties. The Company considers these exposures when measuring its credit reserve on its derivative assets, which was less than \$0.1 million as of January 1, 2017 and September 30, 2016.

The Company's standard contracts do not contain credit risk related contingent features whereby the Company would be required to post additional cash collateral as a result of a credit event. However, the Company is typically required to post collateral in the normal course of business to offset its liability positions. As of January 1, 2017 and September 30, 2016, there was no cash collateral outstanding. In addition, as of January 1, 2017 and September 30, 2016, the Company had no posted standby letters of credit related to such liability positions. The cash collateral is included in Other Receivables in the Condensed Consolidated Statements of Financial Position.

NOTE 11 - FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company has not changed the valuation techniques used in measuring the fair value of any financial assets and liabilities during the year. The Company's derivative portfolio contains Level 2 instruments. See Note 10, "Derivatives" for additional detail. The fair value of derivative instruments as of January 1, 2017 and September 30, 2016 are as follows:

(in millions)	January 1, 2017		September 30, 2016

Derivative Assets	\$ 13.6	\$ 13.6	\$ 8.7	\$ 8.7
Derivative Liabilities	\$ 1.4	\$ 1.4	\$ 3.2	\$ 3.2

The carrying value of cash and cash equivalents, receivables, accounts payable and short term debt approximate fair value based on the short-term nature of these assets and liabilities.

The fair value measurements of the Company's debt are valued at quoted input prices that are directly observable or indirectly observable through corroboration with observable market data (Level 2). The carrying value and fair value for debt as of January 1, 2017 and September 30, 2016 are as follows:

NOTE 15 - INCOME TAXES

SBH effective tax rate for the three month periods ended January 1, 2017 and January 3, 2016 was 32.3% and 8.6%, respectively. SB/RH effective tax rate for the three month periods ended January 1, 2017 and January 3, 2016 was 33.2% and 8.4%, respectively. The estimated annual effective tax rate applied to these periods differs from the U.S. federal statutory rate of 35% principally due to income earned outside the U.S. that is subject to statutory rates lower than 35% net of U.S. and non-U.S. taxes provided on income earned outside the U.S. that is not permanently reinvested. For the three month period ended January 3, 2016, the effective tax rate includes a \$5.8 million reduction for non-recurring items related to the impact of tax law changes and changes in state deferred tax rates on the Company's net deferred tax liabilities, plus the impact from the release of valuation allowance on U.S. net deferred tax assets offsetting tax expense on U.S. pretax income.

During the third quarter of the year ended September 30, 2016, the Company changed its performance metric to Adjusted EBITDA to better reflect how the Chief Operating Decision Maker is currently evaluating the business and making operating decisions. All amounts for prior periods have been recast to reflect current presentation. EBITDA is calculated by excluding the Company's income tax expense, interest expense, depreciation expense and amortization expense (from intangible assets) from net income. Adjusted EBITDA further excludes (1) share based compensation expense as it is a non-cash based compensation cost; (2) acquisition and integration costs that consist of transaction costs from acquisition transactions during the period, or subsequent integration related project costs directly associated with the acquired business; (3) restructuring and related costs, which consist of project costs associated with restructuring initiatives across the segments; (4) non-cash purchase accounting inventory adjustments recognized in earnings subsequent to an acquisition; (5) non-cash asset impairments or write-offs realized; (6) and other. During the three month period ended January 3, 2016, other adjustments consisted of costs associated with exiting a key executive, coupled with onboarding a key executive. Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Introduction

The following is management’s discussion of the financial results, liquidity and other key items related to our performance and should be read in conjunction with the Condensed Consolidated Financial Statements and related notes included in Item 1 of this Quarterly Report on Form 10-Q. Unless the context indicates otherwise, the term the “Company,” “Spectrum,” “we,” “our,” or “us” are used to refer to Spectrum Brands Holdings, Inc. and its subsidiaries and SB/RH Holdings, LLC and its subsidiaries, collectively.

Business Overview

We are a diversified global branded consumer products company. The Company manufactures, markets and/or distributes its products in approximately 160 countries in the North America (“NA”), Europe, Middle East & Africa (“EMEA”), Latin America (“LATAM”) and Asia-Pacific (“APAC”) regions through a variety of trade channels, including retailers, wholesalers and distributors, original equipment manufacturers (“OEMs”), construction companies and hearing aid professionals. We enjoy strong name recognition in our regions under our various brands and patented technologies. Refinancing Activity

See Note 9, “Debt” in the Notes to the Condensed Consolidated Financial Statements, included elsewhere within this Quarterly Report, for additional detail regarding debt. The following recent financing activity has a significant impact on the comparability of financial results on the condensed consolidated financial statements.

During the three month period ended January 1, 2017, the Company amended the credit agreement under its Term Loans, reducing the interest rate margins applicable to the USD Term Loan from a LIBOR subject to a 0.75% floor plus margin of 2.75% per annum, or base rate plus margin of 1.75% per annum; to a LIBOR subject to a 0.75% floor plus margin of 2.50% per annum, or base rate with a 1.75% floor plus margin of 1.50% per annum.

On September 20, 2016, we issued €425 million aggregate principal amount of 4.00% unsecured notes due 2026 (the “4.00% Notes”). The proceeds from the 4.00% Notes and draws on the Revolver were used to repay our outstanding 6.375% unsecured notes due 2020 (the “6.375% Notes”) and pay fees and expenses in connection with the refinancing. The Company repurchased \$390.3 million aggregate principal amount of the 6.375% Notes through a cash tender offer on September 20, 2016, with the remaining outstanding aggregate principal amount of \$129.7 million subsequently redeemed by the Company during the three month period ended January 1, 2017.

The following sets forth the principle components of change in net sales from the three month period ended January 3, 2016 to the three month period ended January 1, 2017:

(in millions)	Net Sales	
Net Sales for the three month period ended January 3, 2016	\$	1,218.8
Increase in consumer batteries		12.4
Increase in hardware & home improvement		6.3
Increase in small appliances		4.0
Increase in home & garden		2.1
Decrease in personal care		(2.5)
Decrease in global auto care		(4.1)
Decrease in global pet supplies		(6.4)
Foreign currency impact, net		(18.8)
Net Sales for the three month period ended January 1, 2017	\$	1,211.8

Gross Profit. For the three month period ended January 1, 2017, gross profit increased \$9.3 million compared to the three month period ended January 3, 2016, attributable to an increase in gross profit margin. Gross profit margin increased from 36.2% to 37.1% primarily due to a shift to higher margin product sales and the exit of low-margin product sales and continuing cost improvement initiatives.

Operating Expenses. Operating expenses for the three month period ended January 1, 2017 increased \$0.8 million compared to the three month period ended January 3, 2016, primarily attributable to an increase in selling and general and administrative expenses of \$5.0 million; an increase in restructuring and related charges of \$1.0 million related to GAC restructuring initiatives; partially offset by decreases in acquisition & integration related charges of \$5.8 million due to lower integration activity. See Note 3 to the Condensed Consolidated Financial Statements, “Acquisitions and Integration Costs” and Note 4 to the Condensed Consolidated Financial Statements, “Restructuring and Related Charges”, included elsewhere within this Quarterly Report, for additional detail.

Interest Expense. Interest expense for the three month period ended January 1, 2017 decreased \$2.6 million, or 4.5%, from the three month period ended January 3, 2016, directly attributable to the refinancing activity previously discussed.

Income Taxes. Our effective tax rate was 32.3% for the three month period ended January 1, 2017 compared to 8.6% for the three month period ended January 3, 2016. Our estimated annual effective tax rate applied to these periods differs from the U.S. federal statutory rate of 35% primarily due to income earned outside the U.S. that is subject to statutory rates lower than 35% net of U.S. and non-U.S. taxes provided on income earned outside the U.S. that is not permanently reinvested. For the three month period ended January 3, 2016, the effective tax rate includes a \$5.8 million reduction for non-recurring items related to the impact of tax law changes and changes in state deferred tax rates on the Company’s net deferred tax liabilities, plus the impact from the release of valuation allowance on U.S. net deferred tax assets offsetting tax expense on U.S. pretax income.

Small appliances organic net sales increased \$4.0 million, or 2.1%, for the three month period ended January 1, 2017 compared to the three month period ended January 3, 2016 attributable to increases in NA of \$8.7 million from incremental product listings and volumes with key retailers, incremental promotional sales, and continued expansion in other distribution channels including e-commerce; increases in EMEA of \$0.9 million from market expansion; offset by decrease in APAC of \$2.4 million from lower promotional activity and a decrease in LATAM of \$3.2 million from lower POS within the region.

Personal care organic net sales decreased \$2.5 million, or 1.5%, for the three month period ended January 1, 2017 compared to the three month period ended January 3, 2016 attributable to decreases in NA of \$5.2 million due to softer category POS and retail inventory reductions; offset by increases in EMEA of \$2.8 million from promotional sales and market expansion.

Operating income in the three month period ended January 1, 2017 decreased \$1.2 million and operating income margin decrease of 10 bps from the three month period ended January 3, 2016 driven by decrease in net sales discussed above and marginal increases in restructuring related charges and depreciation and amortization. Adjusted EBITDA in the three month period ended January 1, 2017 increased \$3.5 million and the adjusted EBITDA margin improved 60 bps from the three month period ended January 3, 2016. Adjusted EBITDA and adjusted EBITDA margin increases were primarily due to cost improvements, operating efficiencies and improvement in product mix offsetting the decrease in net sales discussed above. Adjusted EBITDA is a non-GAAP measurement (See *Non-GAAP Measurements* for reconciliation of net income to adjusted EBITDA by segment).

Organic net sales increased \$6.3 million or 2.2%, attributable to increases in security products of \$7.2 million from increased volumes through the introduction of new products with key retailers, promotional sales through ecommerce channels, increased volumes with non-retail wholesale and builder channels, and the introduction of Tell product into retail channels, partially offset by the exit of lower margin business; lower hardware sales of \$0.7 million driven by the exit of lower margin business offset by incremental retail volumes and new product introduction; and a marginal decrease in plumbing of \$0.2 million. Overall, net sales were adversely impacted by \$4.0 million due to product exits that were primarily associated with branded product that was transitioned under a third party license arrangement.

Operating income in the three month period ended January 1, 2017 increased \$5.6 million with operating income margin increase of 160 bps from the three month period ended January 3, 2016 due to increase in net sales discussed above, cost improvements and product mix. Adjusted EBITDA in the three month period ended January 1, 2017 increased \$5.5 million and adjusted EBITDA margin increased by 150 bps from the three month period ended January 3, 2016. Organic net sales decreased \$6.4 million or 3.1%, primarily due to decreases in companion animal and pet food sales of \$8.8 million from reduced listings and retail inventory reductions with key pet retailers, increased competition and low-margin product exits of \$2.1 million, partially offset by increased sales through strategic customers and other channels including e-commerce; and further offset by increase in aquatics of \$2.4 million primarily in EMEA related to promotional activity.

Operating income increased \$3.2 million for the three month period ended January 1, 2017, and an increase in operating income margin of 200 bps compared to the three month period ended January 3, 2016 driven by cost improvements, operating efficiencies, expense management, and decrease in integration and restructuring related charges to offset the decrease in net sales discussed above. The growth is attributable to increase in household insect control products of \$3.5 million driven by stronger POS at major retailers, partially offset by decreases in lawn & garden controls and repellents of \$0.9 million and \$0.5 million, respectively, due to timing of seasonal inventory sales with retailers.

Operating income for the three month period ended January 1, 2017 decreased \$1.6 million with a decline in operating income margin of 350 bps from the three month period ended January 3, 2016 primarily due to timing associated with manufacturing operating expenses. Organic net sales decreased \$4.1 million, or 5.6%, primarily driven by the timing of sales in the prior year in coordination with integration activities and the deferral of product sales with certain customers in EMEA.

Operating income increased for the three month period ended January 1, 2017 by \$3.5 million, with an operating income margin increase of 580 bps compared to the three month period ended January 3, 2016 attributable to cost impairments and operating efficiencies to offset the decrease in net sales discussed above, coupled with decrease in integration costs. Adjusted EBITDA increased \$0.6 million for the three month period ended January 1, 2017 and adjusted EBITDA margin increased 240 bps compared to the three month period ended January 3, 2016, primarily driven by cost improvements and operating efficiencies to offset the decrease in net sales discussed above.

Non-GAAP Measurements

Adjusted EBITDA. Our consolidated and segment results include financial information regarding adjusted EBITDA (“Earnings Before Interest, Taxes, Depreciation, Amortization”), which are non-GAAP earnings. Adjusted EBITDA is a metric used by management and we believe this non-GAAP measure provides useful information to investors because it reflects ongoing operating performance and trends of our segments, excluding certain non-cash based expenses and/or non-recurring items during each of the comparable periods and facilitates comparisons between peer companies since interest, taxes, depreciation and amortization can differ greatly between organizations as a result of differing capital structures and tax strategies. Further, Adjusted EBITDA is a useful measure of a company’s ability to service debt and is one measure used for determining the Company’s debt covenant. EBITDA is calculated by excluding the Company’s income tax expense, interest expense, depreciation expense and amortization expense (from intangible assets) from net income. Adjusted EBITDA further excludes: (1) stock based compensation expense as it is a non-cash based compensation cost; (2) acquisition and integration charges that consist of transaction costs from acquisition transactions during the period or subsequent integration related project costs directly associated with the acquired business; (3) restructuring and related charges, which consist of project costs associated with restructuring initiatives across the segments; (4) non-cash purchase accounting inventory adjustments recognized in earnings subsequent to an acquisition; (5) non-cash asset impairments or write-offs realized; (6) and other. During the three month period ended January 3, 2016, other consisted of costs associated with the exiting of a key executive, coupled with onboarding a key executive. The following is a reconciliation of net income to adjusted EBITDA for the three month periods ended January 1, 2017 and January 3, 2016, respectively for SBH:

Organic Net Sales. Our consolidated and segment results contain financial information regarding organic net sales, which we define as net sales excluding the effect of changes in foreign currency exchange rates and/or impact from acquisitions (when applicable). We believe this non-GAAP measure provides useful information to investors because it reflects regional and operating segment performance from our activities without the effect of changes in currency exchange rate and/or acquisitions. We use organic net sales as one measure to monitor and evaluate our regional and segment performance. Organic growth is calculated by comparing organic net sales to net sales in the prior year. The effect of changes in currency exchange rates is determined by translating the period's net sales using the currency exchange rates that were in effect during the prior comparative period. Net sales are attributed to the geographic regions based on the country of destination. We exclude net sales from acquired businesses in the current year for which there are no comparable sales in the prior period. The following is a reconciliation of reported net sales to organic net sales for the three month period ended January 1, 2017 compared to net sales for the three month period ended January 3, 2016, respectively:

Spectrum Brands Holdings, Inc.

Net cash provided (used) by operating activities

The \$229.3 million increase in cash provided by operating activities for the three month period ended January 1, 2017 was attributable to (i) incremental cash generated from the segment operations of \$244.4 million; including cash contributed by working capital, primarily from decreases of receivables and inventory due to working capital management initiatives; and (ii) decreases in cash paid for interest of \$17.1 million due to a reduction in annualized interest costs, excluding a non-recurring financing cost of \$5.6 million associated with a premium on redemption of 6.375% Note and costs for re-pricing the USD Term Loan; partially offset by (i) cash paid to Stanley Black and Decker of \$23.2 million as a non-recurring settlement of transitional operating costs subsequent to the acquisition of the HHI Business acquired in 2013; (ii) an increase in cash paid for income taxes of \$0.5 million; (iii) increased corporate expenditures of \$2.6 million; and (iv) a \$0.3 million increase in cash paid for restructuring and integration related charges.

Net cash used by investing activities

The \$11.4 million increase in cash used by investing activities during the three month period ended January 1, 2017 was primarily attributable to an increase in purchases of property, plant and equipment of \$10.6 million.

Net cash (used) provided by financing activities

Net cash used by financing activities of \$102.7 million for the three month period ended January 1, 2017 consisted of (i) \$177.1 million net proceeds from the Revolver Facility and other notes; (ii) \$135.9 million of payments on debt; (iii) payment of debt issuance costs of \$0.5 million; (iv) cash dividends of \$22.6 million; (v) treasury stock purchase of \$97.6 million; and (vi) \$23.2 million of share-based tax withholdings of employees for vested stock awards.

SB/RH Holdings, LLC

The \$220.8 million decrease in cash used by operating activities from SB/RH Holdings, LLC for the three month period ended January 1, 2017, was primarily attributable to the Spectrum Brands Holdings, Inc. factors discussed above.

Net cash used by investing activities

The \$11.4 million increase in cash used by investing activities from SB/RH Holdings, LLC for the three month period ended January 1, 2017, was primarily attributable to the Spectrum Brands Holdings, Inc. factors discussed above.

Net cash provided by financing activities

Net cash used by financing activities of \$75.1 million for the three month period ended January 1, 2017 consisted of (i) \$208.9 million net proceeds from the Revolver Facility and other notes, including an intercompany loan of \$31.8 million with SBH; (ii) \$135.9 million payments on debt; (iii) payment of debt issuance costs of \$0.5 million; and (iv) cash dividends to parent of \$147.6 million.

Capital Expenditures

Capital expenditures for the Company totaled \$28.0 million and \$17.4 million for the three month periods ended January 1, 2017, and January 3, 2016, respectively. The increase in capital expenditures is associated with incremental investment capacity expansion and cost reduction projects.

Depreciation and Amortization

Depreciation and amortization for the Company totaled \$46.0 million and \$46.6 million for the three months ended January 1, 2017, and January 3, 2016, respectively.

Indebtedness

Refer to Note 9 to the Condensed Consolidated Financial Statements, "Debt", included elsewhere in this Quarterly Report for additional information. At January 1, 2017, we were in compliance with all covenants under the Senior Credit Agreement and the indentures governing the 6.625% Notes, the 6.125% Notes, the 5.75% Notes, and the 4.00% Notes.

Credit Ratings

The Company's access to the capital markets and financing costs may depend on the credit ratings of the Company when it is accessing the capital markets. None of the Company's current borrowings are subject to default or acceleration as a result of a downgrading of credit ratings, although a downgrade of the Company's credit ratings could increase fees and interest charges on future borrowings.

Equity

During the three month period ended January 1, 2017, SBH granted 0.7 million restricted stock units to our employees and our directors. All vesting dates are subject to the recipient's continued employment, except as otherwise permitted by our Compensation Committee or Board of Directors or in certain cases if the employee is terminated without cause or as otherwise provided in an applicable employment agreement. The total market value of the RSUs on the date of grant was \$87.3 million, which represented unearned share based compensation. Such unearned compensation is amortized to expense over the appropriate vesting period. See Note 13, "Share Based Compensation" of Notes to Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report for additional information.

From time to time we may repurchase outstanding shares of SBH common stock in the open market or otherwise. On July 28, 2015, the Board of Directors approved a \$300 million common stock repurchase program. The authorization is effective for 36 months. During the three month period ended January 1, 2017, SBH repurchased 0.8 million shares. On January 24, 2017, the Board of Directors approved a \$500 million common stock repurchase program. The authorization is effective for 36 months and replaces the pre-existing \$300 million common stock repurchase program that was scheduled to expire in July 2018.

Liquidity Outlook

The Company's ability to make principal and interest payment on borrowings under its U.S. and foreign credit facilities and its ability to fund planned capital expenditures will depend on its ability to generate cash in the future, which, to a certain extent, is subject to general economic, financial, competitive, regulatory and other conditions. Based on its current level of operations, the Company believes that its existing cash balances and expected cash flows from operations will be sufficient to meet its operating requirements for at least the next 12 months. However, the Company may request borrowings under its credit facilities and seek alternative forms of financing or additional investments to achieve its longer-term strategic plans.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

Critical Accounting Policies and Estimates

Our Condensed Consolidated Financial Statements included in this Quarterly Report on Form 10-Q have been prepared in accordance with generally accepted accounting principles in the United States of America and fairly present our financial position and results of operations. There have been no material changes to our critical accounting policies or critical accounting estimates as discussed in our Annual Report on Form 10-K for the year ended September 30, 2016.

New Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*, which supersedes the revenue recognition requirements in ASC 605, *Revenue Recognition*. This ASU requires revenue recognition to depict the transfer of goods and services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The new revenue recognition model requires identifying the contract and performance obligations, determining the transaction price, allocating the transaction price to performance obligations and recognizing the revenue upon satisfaction of performance obligations. This ASU also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments, and assets recognized from costs incurred to obtain or fulfill a contract. This ASU can be applied either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying the updates recognized at the date of the initial application along with additional disclosures. In August 2015, the FASB issued ASU No. 2015-14, *Revenue from Contracts with Customers (Topic 606) Deferral of the Effective Date*, which amends the previously issued ASU to provide for a one year deferral from the original effective date. As a result, the ASU will become effective for us beginning in the first quarter of our fiscal year ending September 30, 2019, with early application available to us beginning in the first quarter of our fiscal year ending September 30, 2018. We are assessing the impact this pronouncement will have on the consolidated financial statements of the Company and have not determined the materiality or method of adoption.

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*, which supersedes the lease requirements in ASC 840, *Leases*. This ASU requires lessees to recognize lease assets and liabilities on the balance sheet, as well as disclosing key information about leasing arrangements. Although the new ASU requires both operating and finance leases to be disclosed on the balance sheet, a distinction between the two types still exists as the economics of leases can vary. The ASU can be applied using a modified retrospective approach, with a number of optional practical expedients relating to the identification and classification of leases that commenced before the effective date, along with the ability to use hindsight in the evaluation of lease decisions, that entities may elect to apply. As a result, the ASU will become effective for us beginning in the first quarter of our fiscal year ending September 30, 2020, with early adoption applicable. We are assessing the impact this pronouncement will have on the consolidated financial statements of the Company and have not determined the materiality or method of adoption.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market Risk Factors

There has been no material changes in the Company’s market risk during the three month period ended January 1, 2017. For additional information, refer to Note 9 “Debt”, and Note 10 “Derivatives”, to the Condensed Consolidated Financial Statements included elsewhere in the Quarterly Report and to Part II, Item 7A of the Company’s Annual Report on Form 10-K for the year ended September 30, 2016.

Item 4. Controls and Procedures

Spectrum Brands Holdings, Inc.

Evaluation of Disclosure Controls and Procedures. Our management, with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) pursuant to Rule 13a-15(b) under the Exchange Act as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, the Company's management, including our Chief Executive Officer and Chief Financial Officer have concluded that, as of such date, our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in applicable SEC rules and forms, and is accumulated and communicated to the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting. There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended) that occurred during the three month period ended January 1, 2017 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls. The Company's management, including our Chief Executive Officer and Chief Financial Officer, does not expect that the Company's disclosure controls and procedures or the Company's internal controls over financial reporting will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

SB/RH Holdings, LLC

Evaluation of Disclosure Controls and Procedures. Our management, with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) pursuant to Rule 15d-15(b) under the Exchange Act as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, the Company's management, including our Chief Executive Officer and Chief Financial Officer have concluded that, as of such date, our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in applicable SEC rules and forms, and is accumulated and communicated to the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting. There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended) that occurred during the three month period ended January 1, 2017 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls. SB/RH Holdings' management, including our Chief Executive Officer and Chief Financial Officer, does not expect that the SB/RH Holdings' disclosure controls and procedures or SB/RH Holdings' internal controls over financial reporting will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within SB/RH Holdings have been detected.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Litigation

We are a defendant in various matters of litigation generally arising out of the ordinary course of business. We do not believe that any matters or proceedings presently pending will have a material adverse effect on our results of operations, financial condition, liquidity or cash flows.

Item 1A. Risk Factors

Information about our risk factors is contained in Item 1A of our Annual Report on Form 10-K for the fiscal year ended September 30, 2016. With the exception of the change in risk factors discussed below, we believe that at January 1, 2017, there have been no material changes in our risk factors from those contained in Item 1A of our Annual Report on Form 10-K for the year ended September 30, 2016.

HRG and its significant stockholders exercise significant influence over us and their interests in our business may be different from the interests of our stockholders.

HRG, as our majority stockholder, and its significant stockholders, have the ability to influence the outcome of any corporate action by us that requires stockholder approval, including, but not limited to, the election of directors, approval of merger transactions and the sale of all or substantially all of our assets. In addition, we are a party to a stockholder agreement with HRG and certain of its stockholders. This influence and actual control may have the effect of discouraging offers to acquire the Company because any such consummation would likely require the consent of HRG and perhaps certain of its stockholders. HRG may also delay or prevent a change in control of the Company.

In addition, because HRG owns more than 50% of the voting power of the Company, the Company is considered a controlled company under the NYSE listing standards. As such, the NYSE corporate governance rules requiring that a majority of the Company's board of directors and the Company's entire compensation committee or the nominating and corporate governance committee be independent do not apply. As a result, the ability of the Company's independent directors to influence its business policies and affairs may be reduced.

We are one of several companies in which HRG owns a controlling interest. The interests of HRG and these other companies may, from time to time, diverge from the interests of other of the Company's stockholders and from each other, particularly with regard to new investment opportunities. HRG is not restricted from investing in other businesses involving or related to the marketing or distribution of household products, pet and pest products and personal care products. HRG may also engage in other businesses that compete or may in the future compete with the Company.

As previously announced by HRG, on November 17, 2016, HRG disclosed that its Board of Directors had initiated a process to explore the strategic alternatives available to HRG with a view to maximizing shareholder value. HRG has further stated that as part of this process, HRG expects to discuss and may make proposals to one or more of the Company, its management, its board of directors, its stockholders and other persons, including discussions and proposals regarding a merger or a sale and/or a business combination of HRG and the Company. HRG has stated there is no definitive schedule for it to complete its review of strategic alternatives. There can be no assurance that any proposal will be made or that HRG's process will result in a transaction, or if a transaction is undertaken, as to its terms or timing. Neither we nor HRG intend to provide any updates with respect to the foregoing unless determined otherwise in our or HRG's sole discretion or as required by law.

If HRG were to sell substantial amounts of the Company's common stock in the public market, or investors perceive that these sales could occur, the market price of the Company's common stock could be adversely affected. The Company has entered into a registration rights agreement (the "Registration Rights Agreement") with HRG, certain of HRG's stockholders and certain other of our stockholders. If requested properly under the terms of the Registration Rights Agreement, these stockholders have the right to require the Company to register all or some of such shares for sale under the Securities Act in certain circumstances, and also have the right to include those shares in a registration initiated by the Company. If the Company is required to include the shares of its common stock held by these stockholders pursuant to these registration rights in a registration initiated by the Company, sales made by such stockholders may adversely affect the price of the Company's common stock and ability to raise needed capital. In addition, if these stockholders exercise their demand registration rights and cause a large number of shares to be registered and sold in the public market or demand that the Company register its shares on a shelf registration statement, such sales or shelf registration may have an adverse effect on the market price of the Company's common stock.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the three month period ended January 1, 2017, we did not sell any equity securities that were not registered under the Securities Act. On July 28, 2015, the Board of Directors approved a \$300 million common stock repurchase program. The authorization is effective for 36 months. The following table reflects all shares repurchased within the common stock repurchase program.

	<u>Total Number of Shares Purchased</u>	<u>Average Price Paid Per Share</u>	<u>Total Number of Shares Purchased as Part of Plan</u>	<u>Approximate Dollar Value of Shares that may Yet Be Purchased</u>
As of September 30, 2016	580,087	\$ 96.26	580,087	\$ 244,159,304
October 1 to October 30, 2016	25,196	135.10	25,196	240,755,272
October 31 to November 27, 2016	46,004	129.43	46,004	234,801,082
November 28, 2016 to January 1, 2017	731,081	119.95	731,081	147,110,865
Quarter ended January 1, 2017	<u>802,281</u>	<u>\$ 120.97</u>	<u>802,281</u>	<u>\$ 147,110,865</u>

On January 24, 2017, the Board of Directors approved a \$500 million common stock repurchase program. The authorization is effective for 36 months and replaces the pre-existing \$300 million common stock repurchase program that was scheduled to expire in July 2018.
