Raymond James 41st Annual Institutional Investors Conference

David Maura, Chairman and Chief Executive Officer
Jeremy Smeltser, Chief Financial Officer

March 2, 2020

Forward-Looking Statements

Certain matters discussed in this presentation, with the exception of historical matters, may be forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical facts, regarding our business strategy, future operations, financial condition, estimated revenues, projected costs, projected synergies, prospects, plans and objectives of management, including plans to repurchase Company shares, all of which remain subject to the discretion of management and the Company's Board of Directors, as well as information concerning expected actions of third parties, are forward-looking statements. These statements are subject to a number of risks and uncertainties that could cause results to differ materially from those anticipated as of the date of this presentation. Important factors that could cause our actual results to differ materially from those expressed or implied herein include, without limitation: our ability to manage and otherwise comply with our covenants with respect to our significant outstanding indebtedness or maintain our credit ratings; changes and developments in external competitive market factors, such as introduction of new product features or technological developments; development of new competitors or competitive brands or competitive promotional activity or spending or industry consolidation; the cost and effect of unanticipated legal, tax or regulatory proceedings or new accounting policies, laws or regulations (including environmental, public health and consumer protection regulations); our discretion to conduct, suspend or discontinue our share repurchase program (including our discretion to conduct purchases, if any, in a variety of manners such as open-market purchases or privately negotiated transactions); seasonality of our products and changes in consumer demand for the various types of products we offer resulting in the loss of, or a significant reduction in, sales to significant retail customers; our ability to develop and successfully introduce new products, protect our intellectual property and avoid infringing the intellectual property of third parties; public perception regarding the safety of our products, including the potential for environmental liabilities, product liability claims, litigation and other claims; unfavorable developments in the global credit markets; the impact of overall economic conditions, terrorist attacks, acts of war, natural disasters, public health concerns (including the impact of COVID-19) or other unrest in international markets on consumer spending; fluctuations in commodities prices, supply shortages, the costs or availability of raw materials or terms and conditions available from suppliers; changes in the general economic conditions in countries and regions where we do business, such as stock market prices, interest rates, currency exchange rates, inflation and consumer spending; our ability to successfully implement manufacturing, distribution and other cost efficiencies and to continue to benefit from our cost-cutting initiatives; the impact of expenses resulting from the implementation of new business strategies, divestitures or restructuring activities; our ability to integrate, and to realize synergies from acquisitions or execute, or receive benefits from disposition; our ability to identify, develop and retain key employees; unfavorable weather conditions or climate change and various other risks and uncertainties, including those discussed herein and those set forth in our filings with the Securities and Exchange Commission ("SEC").

We also caution the reader that undue reliance should not be placed on any forward-looking statements, which speak only as of the date of this presentation. We undertake no duty or responsibility to update any of these forward-looking statements to reflect events or circumstances after the date of this presentation or to reflect actual outcomes. Additional factors that may affect future results and conditions are described in our filings with the SEC, which are available at the SEC's web site at www.sec.gov or at Spectrum Brands' website at www.spectrumbrands.com.

The information contained in this presentation is summary information that is intended to be considered in the context of our SEC filings, and other public announcements that we may make, by press release or otherwise, from time to time. In addition, information related to past performance, while helpful as an evaluative tool, is not necessarily indicative of future results, the achievement of which cannot be assured. You should not view our past performance, or information about the market, as indicative of our future results. Further, performance information respecting investment returns on portfolio transactions is not directly equivalent to returns on an investment in our common stock.

Reconciliation of Non-GAAP Financial Measurements

Management believes that certain non-GAAP financial measures may be useful in certain instances to provide additional meaningful comparisons between current results and results in prior operating periods. Within this presentation, including the tables that follow, reference is made to organic net sales, adjusted diluted earnings per share (EPS), adjusted earnings before interest, taxes, depreciation and amortization (EBITDA), adjusted EBITDA margin and adjusted free cash flow.

Management believes that organic net sales provide for a more complete understanding of underlying business trends of regional and segment performance by excluding the impact of currency exchange fluctuations and the impact of acquisitions (when applicable) when there is no comparable sales in the prior period. Organic growth is calculated by comparing organic net sales to net sales in the prior year. The effect of changes in currency exchange rates is determined by translating the period's net sales using the currency exchange rates that were in effect during the prior comparative period. Management uses adjusted diluted EPS as a useful measure for providing further insight into our operating performance because it eliminates the effects of certain items that are not comparable from one period to the next. An income tax adjustment is included in adjusted diluted EPS to exclude the impact of the valuation allowance against deferred taxes and other tax-related items in order to reflect a normalized ongoing effective tax rate. For the three-month period ended December 29, 2019, the normalized ongoing effective tax rate was updated to 25.0%. Adjusted EBITDA is a metric used by management to evaluate segment performance and frequently used by the financial community which provides insight into an organization's operating trends and facilitates comparisons between peer companies, because interest, taxes, depreciation and amortization can differ greatly between organizations as a result of differing capital structures and tax strategies. Adjusted EBITDA can also be a useful measure for determining Spectrum Brands' debt covenant compliance. Adjusted EBITDA excludes certain items that are unusual in nature or not comparable from period to period. Adjusted EBITDA margin reflects adjusted EBITDA as a percentage of net sales. Adjusted free cash flow provides useful information to investors regarding our ability to generate cash from business operations that is available for acquisitions and other investments, service of debt principal, dividends and share repurchases and meet its working capital requirements. Our definition of adjusted free cash flow takes into consideration capital investments required to maintain operations of our businesses and execute our strategy.

Spectrum Brands provides this information to investors to assist in comparisons of past, present and future operating results and to assist in highlighting the results of on-going operations. While Spectrum Brands' management believes that non-GAAP measurements are useful supplemental information, such adjusted results are not intended to replace the Spectrum Brands' GAAP financial results and should be read in conjunction with those GAAP results. Supplemental tables have been provided within this presentation to demonstrate reconciliation of non-GAAP measurements discussed in the most relevant GAAP financial measurements.

All GAAP reconciliations are available at www.spectrumbrands.com

Spectrum Brands

David Maura

Chairman and Chief Executive Officer

LEVERAGE TARGET of 3.5x-4x net debt to EBITDA

1. ORGANIC GROWTH

We intend to allocate capital internally to our highest return opportunities: R&D, Innovation, New products and advertising/marketing. Drive vitality and profitable organic growth.

2. RETURN OF CAPITAL

We intend to aggressively repurchase our shares when our management team and Board of Directors believe that our shares are trading at a material discount to our long term intrinsic value.

3. MERGERS & ACQUISITIONS

We intend to pursue tuck in strategic acquisitions that are synergistic and help drive shareholder value creation.

Key Investment Considerations

Strong Balance Sheet with Ample Liquidity

Shareholder Friendly Capital Allocation

Strong Cash Flow Generation and Valuable NOLs (~\$800 Million)

Increased Innovation and Marketing Investments behind our Leading Brands with Barriers to Entry

LONG-TERM SUSTAINABLE GROWTH

2020 Targets

- **+LSD Net Sales Growth**
- **\$570M-\$590M Adj. EBITDA Growth**
(vs. \$567M in 2019)
- **\$240M-\$260M Adj. FCF Growth**
